The Governor's generousness in saying .tint." he land in this Colony, on the whole, a very accurate body of reporters" was seriously lessened by this unfair and inaccur allusion to an incident which is thoroughly well understood by community.

THE Hon. F. B. Johnson continued his

able to his sense of fair-play, but which now-a-days rather jars upon the public mind, partly perhaps because of the strange ring which genuine praise now makes in Council debates, and partly because the community (rightly or wrongly) are now slow to follow any one in a laudation of the present ret If it be borne in mind that much of the Estimates must have been drawn up by Dr. Stewart, when acting Colonial Secretary, and that the lines r pon which this document is framed are of a somewhat stereotyped character. the credit which belongs to the compilers is not of an extraordinary nature. Certainly the "considerate and sympathising policy towards the Chinese" adopted by Governor Hennessy is not generally credited with the existing prosperity of the Colony, although his arowed atterances that the trade of Hongkong must fall into the hands of the Chinese, and his apparent satisfaction at this prospect, may have exercised a certain influence in that direction. The Superintendent of the Gaol differed from this opinion, and maintained that the Gaol Ordinance was quite sufficient to meet the case. Some time afterwards Mr Wodohouse again sat on the case in the Gaol, but said that, after the fullest consideration, he could not alter his decision and since that time the public have heard nothing about the matter. THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication to time such items of information, lists, similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, are admissible. are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

department. Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

Christian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review:- "This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction. of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Acriew by papers highly preditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of bonour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was Four Coolies, ... ... displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure Its continuance. ## Money Order Regulations.

1 - Money Orders are exchanged with the United Kingdom, New South Wales, Queensland, South Australia and Port Darwin, the Straits Settlements, Western Australia, and (except at Shanghai) with the Japanese Empire. Hongkong siso issues orders on Shanghai, and vice versa.

2.—Small sums may be remitted between the other Ports by means of Postage Stamps, subject to a charge of one per cent, for cashing them.

3.—Many Money Orders are supplied to residents at the smaller Ports in this way. An application for an order\* is filled up, and is enclosed with a stamped, directed, and unsealed envelope to the Postmaster at the nearest issuing office. The application must be accompanied with the full amount (including commission) in cheque, postage stamps, or other equivalent of cash, and a little margin should be left for variations of exchange. The Postmaster issues the order, sends it on in the envelope, and returns the change, if any, by first opportunity, with a receipt for the letter, if it were to be registered, as it always should be. Care should be taken to send these applications in time, as the Money Order Offices close some hours before the departures of the mails.

4.-No order must exceed £10, or \$50, or include any fraction of a penny, nor will more than two such orders be issued to the same person, in favour of the same payee, by the same mail. Orders will be drawn at the current rate of the day; and paid at the rate of the day when the advice arrived.
